Re: Downers Grove Groundwater Investigation

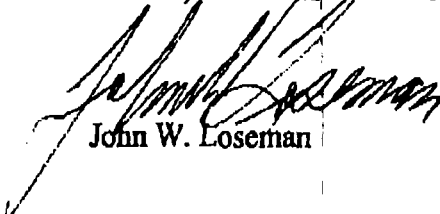

Mr. Faryan:

Following up my letter to you of today and your voicemail to me of this afternoon, this clarifies that USEPA does not have permission to enter upon or otherwise access the premises at 2537 Curtiss Street in Downers Grove, Illinois.

As I previously stated, the property owner, White Lake Building Corp., is willing to cooperate, but we believe USEPA's request for access is premature until USEPA has reviewed the most recent hydrogeologic reports that we have provided to you and that we previously provided to IEPA. Please contact me if, after reviewing these reports, USEPA still believes access is necessary.

Sincerely,

LEWIS, OVERBECK &amp; FURMAN
